Zenith, Room for Prestige.

SHEER ELEGANCE.

Zenith. a valuable investment in travel comfort.

The Hapro Zenith is in a league of its own. Full attention has been given to its beautiful design, aerodynamics, reliability, safety and user friendliness. With an exclusive eye for detail and the use of only the most advanced materials, the Zenith is a truly valuable investment in travel comfort. Carefree and safe travelling with a stunningly designed space for all extra luggage you can think of, year after year, journey after journey. **Are you ready to expand your life?**

BEAUTY AND BRAINS.

Extra space with fine aerodynamics and sheer elegance.

The Zenith is Hapro's absolute flagship. An impressive example of modern design - combining innovative, intelligent features with state-of-the-art materials and an eye for detail. The Zenith is the sublime luggage-carrier for everyone who wants to merge extra space with sheer elegance. Nothing in this roofbox will detract from the design of your car. Feel like going on a family ski vacation or a weekend of sailing with friends, the Zenith offers you all the space, safety and comfort that you need. And yes, it makes you look smart too.

DAZZLING DESIGN, LASTING COMFORT.

A combination that retains its beauty throughout the years.

The Hapro Zenith has a design to shine. Its exciting smooth lines and aerodynamic shape are a true feast for the eyes, that match the latest trends in automotive design.

SAFE AS A HOUSE. The Hapro Zenith is much more than just good looks. Safety is a matter of primary importance, which has been tried through a series of thorough tests under the most severe circumstances. City crash tests, stability tests, vibration tests, and water and wind tunnel tests: nothing has been left to chance. The Hapro Zenith passed them all with honours and has been TÜV approved.

Material and color:

The high gloss ABS/PMMA materials with metallic finish are UV-proof and impact resistant. All Zenith models are available in three luxurious colours: Brilliant Black, Pure White or the exclusive Silver Carbon.

Diffuser:

The unique design of the Zenith's rear side immediately grabs your attention. The stainless steel diffuser has a reversed V-shape, where the bottom is complemented by the V-shaped lid. Premium materials enhance Zenith's distinguished look and provide for sheer elegance.

Mounting:

The unique Premium-Fit guarantees a quick, secure and easy mounting of the roofbox.

Opening¹:

Loading and unloading the Zenith is simple due to the double function of the dynamic spring struts. It opens the lid and keeps it in its optimum position while loading. When closed they pull the lid to the base of the roofbox for a perfect seal.

**Opening²:**

All models can be opened on both sides. An extremely comfortable feature, allowing maximum ease of loading and mounting.

Aerodynamic design:

Zenith's flat and aerodynamic shape has been designed to cut through the wind.

**Locking:**

The exclusive 3-point central locking system is a feature that locks the box securely and tightly in three places - in one movement. As an additional safety measure the key can only be removed if the roofbox is locked in the correct manner.

**Reinforced bottom:**

The metal reinforcement rails over the entire length of the bottom provide strength and stability.

**Front:**

The aerodynamic edgeless front is reinforced with a metal cross profile for extra firmness.

START PACKING.

As if you have an extra car...

ROOM FOR 11,328 GOLF BALLS.

Small and lean on the outside, yet large and spacious on the inside. The Hapro Zenith offers plenty of room in a stylish and clever ergonomic design that is both attractive and functional. You can load up to 75 kg of extra luggage... or 11,328 golf balls, if you like. The recessed bottom provides less air resistance and ensures a perfect fit between roofbox and car body. Due to the reduced height - part of its aerodynamic design - you're still able to drive your SUV into a parking garage. In short, a big plus.

Hapro Zenith 6.6

Hapro Zenith 8.6

MERGING SPACE AND DESIGN. The Hapro Zenith is available in two versions. Both the Zenith 6.6 and the Zenith 8.6 are carried out in three luxurious colours: Brilliant Black, Pure White or the exclusive Silver Carbon.* Space and design have beautifully merged.

* Detail Silver Carbon finish

THE CONVENIENCE FACTOR.

The unique mounting of the Zenith.

The unique patented Premium-Fit is a complete, one-piece unit. No hassle with separate clamps or other accessories. The Premium-Fit allows a quick, easy and above all safe mounting of the roofbox. Mounting and removing the roofbox is done with a simple and smart turn of the rotating knob, which deploys special clamps around the roof rack. The reassuring ratchet noise tells you exactly when the roofbox is securely fixed to the roof bars. Due to its limited height, the Premium-Fit system allows for even more space for your luggage.

SAFETY FIRST.

Welding would be the lesser option...

The Zenith is attached to the roof racks with four Premium-Fits that can be shifted separately. Each one centers itself on the roof rack, which makes the Premium-Fit a perfect fit for any roof rack system with a maximum width of 95 mm. The clamps are covered with a synthetic material for extra grip and to protect the roof rack. Of course the Premium-Fit system has been thoroughly tested. The roofboxes are certified following the strict ISO 11154 and TÜV safety regulations.

SPECIFICATIONS.

All the ins and outs.
